

## 02 Collaborating with Others

### Non-conflict

- Given them Github link
- Haven them pull the repo
- Make a different file each of them in their name

### Conflict

- Make one student push
- I edit file
- We get a conflict
- Show how to solve it

### Exercise

- Work with your neighbor
- Create file
- both edit at the same time at the same point
- See what happens
- After one has a conflict, the other works somewhere else in the file
- Conflict guy pushes
- Other guy pulls and pushes
